up for the advancement of the objects of the Society. Rev. Mr. Leonard, President of the Board, called the meeting to order for the purpose of balloting for

Messra. Davis, Vogell, Wheelock and Derby were then appointed Tellers, and, when the Convention had ballotted, Rev. Whitman Metcalf (Eric Co.) was

announced as having received a majority of votes. Mr. Metcalf then took the Chair, and briefly returned thanks for the honor conferred upon him in electing him to preside. Brothers T. O. Lincoln and Stimpson

were appointed Secretaries. After the disposal of some routine business, the Convention adjourned until 2} o'clock.

AFTERNOON SESSION. The Convention assembled at 21 P. M., pursuant to adjournment, and the business of the meeting was prefaced with singing, and prayer by Rev. C. G. Carpenter.

On motion, visiting Brethren were invited to seats, and to participate in the exercises of the occasion. Committees upon Nominations, Arrangements, Cor

respondence, &c., were then appointed by the Chair. Rev. Mr. Vogell proposed the following resolution

which, after a few observations, was adpopted.

Resolved. That in view of the increase and importance of the business of the Convention, it shall not be in order to in troduce reports, resolutions or addresses which have not specific bearing on the object for which this body was constituted. On motion, it was agreed that the hour of m

hall be 9 o'clock A. M., 21-2 o'clock P. M., and 71-2 o'clock P. M.

That portion of the Secretary's Report which relates to

The Baptist Register was then taken up and read by general consent. It appears, from the repot, that the sale of The Baptist Register has been for some time upon the taps, bids having been made by various parties, among others, by the present editor, Bro. A. Beebe.

Rev. Mr. Wescott moved that the Board be empowed to sail the parties of the property of the propert

Rev. Mr. Wescott moved that the Board be empowered to sell the paper to Brother Beebe for the sum offered by him (82,500). The motion was agreed to, and Brother Beebe expressed his thanks to the Convention for this further evidence of confidence in his divotion to their beloved common Zion.

Rev. Mr. Wheelock, from the Committee upon arrangements for the next meeting, reported Watertown, Jefferson Co., as the place of assembling, and Rev. E. L. Taylor to preach. The report was accepted.

Rev. Mr. Switzer, from the Committee on Nominations, reported some seventy or eighty names for Vice-Presidents.

Presidents.
On motion, it was agreed that the Executive Committee of the Board be located at Albany.
The Moderator then appointed Tellers, and the Convention proceeded to ballot for President of the Board, and Treasurer and Secretary of the Society, and the balloting resulted in the election of Rev. Lewis Leonard as President, Smith Sheldon, Esq. of Albany or Treasurer. resident, Smith Sheldon, Esq., of Albany, as Treas-, and Rev. L. F. Beecher, D.D., of Albany, as Secreary. The nominations for Vice-Presidents were then ap

Proved.

Rev. G. Baldwin, of Troy, moved a reconsideration of the vote locating the Executive Committee at Albany.

Many brethren (he understood) felt disposed to offer some observations upon the proposed change.

Rev. L. F. Bescher suggested that there be a free conference upon the subject on Thursday morning; and by general consent the matter was postponed until then.

ing; and by general consent the matter was p-separatuntil then.

On motion by Prof. Anderson, the thanks of the Convention were tendered to Rev. Mr. Corey for his interesting and timely sermon, and a copy of the same was requested for publication. The thanks of the Convention were also voted to E. Palmer, Esq., Treusurer, and Rev. H. Stanwood, Secretary of the Society, for their faithful discharge of the duties, devolving on them durfaithful discharge of the duties devolving on them dur ng their terms of office.

ing their terms of office.

The venerable Dr. Sharp, of Boston, was then introduced and spoke briefly upon the high importance of the object they sought to advance. He carnestly exhorted them to ever bear in mind that depen lence upon God, as to the means, was the only efficient aid by which they could make their organization and action truly use-ful. He concluded with a fervent address to the Tarone of Grace, and the Convention then adjourned until 7 1-2

EVENING SESSION The Convention reassembled at 71 o'clock P. M., and the exercises of the evening commenced with singing, and prayer by Dr. Hague (Newark.)

The Secretary of the Society, Rev. H. Stanwood, then read the report of the Executive Committee for the last year. The report spoke of the prospects of the Society, and the progress of their work during the past year, in a very encouraging tone. The Committee expressed their gratitude for the manifest tokens of Divine approbation which marked the labors of the Societhe year, there were \$8.312 appropriated to poor and struggling Churches 4.463 ermons have been preached: the year, there were \$8,312 appropriated to post and struggling Churches 4.463 cermons have been preached; 6,495 social meetings were held; 98 stations were occu-pied; 217 baptisms took place, and 1.942 Sunday School pupils gathered in. During the year, 8 ministers have died; 34 have been ordained; 7 haptist Churches recog-nized, and 14 new houses of worship have been opened. Rev. Mr. Wescott moved that the report be accepted and advanted.

He observed that the operations of the post year excited most encouraging hopes for the future; and he antici-pated that much more would be effected during the ea-

pated that much more would be effected during the easuing year. The appropriations could be made more
wisely, because upon better information of the spiritual
wents of the Store. If the Convention would allow the
Executive Committee about \$15,000 for the next year,
many a sail levert would be cheered, many a feelile,
struggling Church buoyed up by timely help, and the
great work of preaching God's Gospel carried out apon
a more extended besis. The report was adopted.

E. Palmer, Esq., Treasurer, reported that the receipts
from all sources amounted for the past year to \$3,414-22.
Distursements, \$9,341-26. Amount borrowed, \$3,125.
Some \$80 worth of property was on hands; \$300 had
been paid out since the auditing committee passed upon
the report, and \$61.81 (the day's collection) received.

Rev. Mr. Events, (Western N. Y.) moved the adoption
of the report, and warmly urged the necessity of the
Convention subscribing with a free and liberal hand for
the advancement of the great object they had in view.
The report was then unanimously adopted.

A collection in aid of the Society was then taken up,
after which,

Rev. Mr. Chandler, of Elmyra, addressed the Conven-

A collection in and of the Society
after which,
Rev. Mr. Chandler, of Elmyra, addressed the Convention in forcible terms. He dwell upon the fact that
if men claimed to be members of the Christian Church,
there was a heavy responsibility resting upon them to
help to their utmost, the distribution of the bread of life. help to their utmost, the distribution of the bread of life.

Rev. Dr. Beecher (Albany) also spoke to the same effect as the previous speakers. His remarks were very appropriate, and illustrated by some apt and humorous anecdotes.

anecdotes.

The proceedings were closed with appropriate hymns, and prayer by Rev. Mr. Gillett. The Convention then adjourned until this morning, when they will meet at 9 o'clock, A. M.

IT HAS COME !- That long-delayed Stormthe Storm-the old-fashioned Equinoctial Storm-has come at last, and with a fury that betokens no loss of vigor from delay. Day after day have we watched for our old friend; but one long sunny day followed another, and starry nights of unwonted leveliness intervened, until we felt some fears that the sun had not crossed the line at all, and that we should slide gently into Indian summer and thence into winter without our annual dilution. But faith held out, and perseverance is crowned with triumph. Yesterday the uneasy wind, piping high and fitfully, and shifting momentarily to some new point, said as plain as it could say-"It is coming." Clean's of that leaden gray which denotes permanence slowly crept up the sky; and early in the afternoon the rain began to fall, in small drops and slowly as first, but gradually increasing, and having the tone of persistence which plainly indicated that it was no summer shower that had begun, but the genuine Line Storm, so dreaded of yore and so unwelcome now. The rain increased; at sunset it was brisk, an hour afterward smart, and at 10 o'clock terrific. The summer is over; the harvest moon has waned; the pleas ant days are gone; the birds have flown; the leaves are falling; the Equinoctial has come; it is autumn.

The doings in the Board of Aldermen last night were quite unimportant. A sketch will be found elsewhere. The Assistants adjourned for want

ALBONI.-This artist gives her last concert this evening, when she repeats "Casta Diea" and "Non Credea,"

THE LONG-SHOREMEN AND MERCHANTS .-Yesterday there was no disturbance, so far as we could learn, between the 'long-shoremen and those at work, their employers, or the police. A large proportion of them were said to be at work on the day previous, but we were informed that none worked except for the advanced wages, as claimed-those rates being submitted to, from necessity, by ship-owners who were under the

necessity of loading or unloading at any rate.

At 1 o'clock yesterdry afternoon, the merchants and ship-owners met to hear the report of their committee. appointed to confer with the committee of long-shoremen. The report rendered, was, in substance, that the long-shoremen, as a body, condemned the disorderly proceedings of Monday and Tuesday, admitted the right of the ship-owners to employ whom they please, and at such wages as they may obtain them for. They also claimed the right to fix the value of their own labor; and, ask for an increase of wages to 14s, for laborers, and 16s, for riggers, net, on the ground of the advance of rents and the price of provisions.

The merchants consulted upon the subject and finally decided that for the purpose of conciliating the 'longshore-men, and putting an end to the dissatisfaction and loss of time which are results of the difficulty; they will, on and after the 21st inst., pay riggers 15 shillings and laborers 13 shillings, to be paid as heretafore, which, we presume, means with a deduction of 1 shilling per day to the head rigger or boss stevadore; and it was determined not to pay a higher rate after that date.

A committee was designated to obtain the signatures

of ship-owners and merchants not present, to the resolutions passed by the meeting, that it may be an established and uniform rule among them.

This evening the long-shore-men hold a meeting in Chatham Hall, at which the action of the merchants will be considered.

THE 'LONG-SHORE MEN IN BROOKLYS .- Yesterday afternoon a party of long-shore men, numbering over a hundred, proceeded along the Docks, commencing near the Navy Yard, and notified all the laborers they found engaged that they should expect them to discontinue work at present prices; if not, they should compel them to quit. After visiting Dennison's Stave Yard, foot of Bridge-st, and Thorne's Dock, near the Catharine Ferry, they passed over to Furman-st., and called at Harbeck's Stave Yard and Thompson's Dock, and proceeded to drive the laborers from their work. At Hurbeck's Yard about twenty-five men were employed, all of whom were compelled to suspend labor for the time being. They then returned to Thompson's Wharf and attacked about a dozen laborers engaged there, who were compelled to seek safety in the store-house. The Police, hended by the Chief, arrived on the ground in time to prevent further violence, and, falling upon the long-shore men with their clubs, they compelled them to make a hasty retreat. Some of the party scampered toward the Ferry and crossed to New-York, while others ran up McKinney-st. One or two who showed a disposition to resist, were summarily dealt with by the Police, but no arrests were made-the officers being content with dispersing them.

THE STEREOSCOPE.-This singular instrument, the application of which was discovered several years ago by Prof. Wheatstone, has been brought again into public notice by the daguerreotype artists of this City, some of whom are now making pictures to be used with it. The Stereoscope (a word derived from the Greek, signifying "solid view") is composed of two glasses, (one to each eye) fitted in tubes something like the eye-glasses of a lorgnette. At about five inches distance are placed two pictures, one before each class. They are of miniature size, exactly alike, except that they are taken at slightly different angles. Looking through the leases as you would look through an opera glass, and fixing an eye upon each picture, you find in a few seconds that the pictures move together, form a single one, and come out as it were from the plate, standing in bold relief, so as to present all the appearances of life, every limb and feature, every projection or depression of dress, every bair, seeming to stand exactly as they did upon the original. This optical delusion is quite startling, and it is for a long time difficult to realize that you are not looking upon a person instead of a ricture. There is, however, one serious de feet, and that is a peculiar ghastliness of the picture or representation. There is a waxwork appearance of the flesh, which is very unpleasant, and conveys to the be holder a constant idea of death. Could this be rem : died, the stereoscope would be a valuable aid to the eye and the mind in giving correct ideas of portraits or pie tures of any kind. Damerreotypes of statuary viewed through this instrument are not subject to the gha tly appearance referred to, and as faithfully represent th creations of the sculptor as if the real statues were before the eye. The Stereoscope with which we made our optical experiments was in the possession of Mr.

FING, Esq., of Guilford, Conn., aged 54 years, after will be taken along with which to show him the operatwelve days' distressing sickness, of dysentery of the tions of a railroad. Telegraphic apparatus and wire most malignant type. Mr. Griffing, at the time of his death, was President of the New-Haven and New-London Rollroad Company. During a series of thirty years, his name has been especially associated with the ship-building and railroad operations, to the development and progress of which he largely contributed. His enterprises were successful, and he had accumulated a very handsome fortune. His life was eminently practical and useful, and his death will be much regret ted by all who knew him. John C. Klinck, the oldest eartman in

in the City, being at present in his eightieth year, renewed his license on Wednesday at the Mayor's Office as public cartman. Mr. Klinck received his first license from De Witt Clinton in 1803, when that distinguished man was Mayor of New-York. He was employed to eart the wood from the Old Fort at the Rowling Green. when it was demolished, and the lumber was distributed among the poor. Up to the present time he has enjoyed excellent health, and is still able to attend to his business, although he occasionally complains a little of the

MILITARY VISIT.-The Eagle Guards, Capt. Lacy, of Bridgeport, arrived in this City yesterday afternoon in the steamer Cataline, and were received at 2 o'clock by the Washington Continentals, Capt. Darrow, and Gulick Guards, Capt. Dean, preceded by the New York Brass Band. The Eagle Guards, No. 33, were dressed in the U.S. uniform. and were accompapled by the Bridgeport Cornet Band. During their stay they are to be the guests of the above Companies, and their head quarters will be at Tammany Hall. They present a fine appearance.

VISITORS FROM LOWELL.-The Mayor of Lowell, Mass., and other gentlemen from that city. who have arrived here as guests of the American Institute, paid a visit to the City Hall yesterday morning, and were hospitably received by Mayor Kingsland. After viewing the Governor's Room, &c., they were invited to make an excursion to the High Bridge and the Public Institutions.

LECTURES .- It is stated that the Historical Society will cause a Course of Lectures to be given here during the coming winter. Among the lecturers named are Daniel Webster, Washington Irving, Edward Everett, Gen. Cass, Mr. Choate, Mr. Kennedy, Mr. Sims, and Dr. King.

Pomegranates and green figs are among the fruits recently brought from the sunny South. The latter luxuries are undeniably delicious if ripened on the tree, but here they forcibly remind the eater of one of two baskets of figs spoken of by Jeremiah-which basket the reader will know upon tasting.

FURTHER REDUCTION .- The fare to Boston by the Fall River Line has been still further reduced. It is now \$1 50 in cabin ; \$1 on dec To Providence, Newport and Fall River, \$1 in cabin : 75 cts. on deck.

The Norwich and Worcester Line advertises to take cabin passengers to Boston for \$1 50.

We understand that fraudulent tickets to California passengers are again being issued, and warn those bound to the Golden Region to buy only of owners of steamers, and not of pretended agents.

A FRIDAY ITEM.-An old ship-carpenter, of long experience in our Navy, tells us that the steamfrigate Powhatan is a notable instance of the fallacy of the old saying, that ships which sail on a Friday never get to port. The blocks for the Powhatan were laid on

Friday, her keel was laid on Friday, she was raised on Friday, was launched on Friday, her masts were taken in on Friday, her heavy machinery put up on Friday, her trial trip (undertaken on Thursday, but feiled.) was accomplished on Friday, she left Norfolk on her first cruise on Friday, has sailed from many other ports on Friday, and will very probably leave here this day (Friday) for a voyage to the Gulf. Here are Fridays enough to sink a whole Navy, if Jack's super-titions had proved realities; but on the contrary, the Powhatan (so far as we know) has been a very lucky ship. Perhaps the fact of her being a steamship is the secret of her security from the demons that pursue Friday ships and Friday sailors.

THE WAR STEAMERS POWHATAN AND Mississippi.—These two war steamers are still in port -the Powhatan lying at the Navy Yard, and the Mississippi not far from the Brooklyn shore, just below the Fulton Ferry. The Powhatan will drop down the stream to-day at 11 o'clock, lay off the Battery until tomorrow, and then leave the harbor on her cruise to Havana. Com. Newton's broad pennant will be hoisted to-day on hoard this steamer. She takes out Judge Conklin, lately appointed our Minister to Mexico, who is instructed to stop at Havana and confer with the authorities of Cuba in relation to the late alleged indignities offered to our Government by the authorities of that harbor, in molesting our citizens and mails. The complement of men on board of the Powhatan will be 300, all told-of which number 33 are officers and 45 are marines. The remainder are sailors, firemen and coalheavers. The Cyane sloop-of-war precedes the Powbatan to Havana. The length of time which these Government vessels will remain there depends upon future orders, based on the result of the negotiation of our representative with the Spanish authorities.

The officers of the Powhstan are as follows: Captain. William Mervine; Lieutenants, O. S. Glisson, R. B. Pegram, F. S. Hagerty, J. H. Adams, W. E. Boudinot; Master, H. K. Stevens; Purser, J. Bryan; Surgeon, J. A. Lockwood; Passed Assistant Surgeon, C. W. Wheelwright; Assistant Surgeon, A. Schriver; Passed Midshipmen, R. Stuart, E. Y. McCauley, W. W. Low; Boatswain, M. Whiting, Gunner, T. V. Venable; Carpenter, J. O. Butler; Sailmaker, G. Parker; Chief Engineer, G. Sewell; First Assistant Engineers, M. K. Hell, John P. Whipple; Second Assistant Engineers, J. Faron, G. Gideon, W. H. King: Third Assistant Engineers, M. S. Siann, H. Fsuth, Le Roy Arnold; Captein's Clerk, H. Spafford; Purser's Clerk, J. B. Floyd; Marine Officer, (Captain by brevet,) Robert Tansill; Chief Engineer W. E. Everett, passenger.

The Powhstan and the Susquehanna, the latter now in the East Indies, are of equal size, and are the two largest steamships in the United States service, or that ever entered our waters. The P. is 276 feet long in its extreme length, 45 feet beam, 69 feet over her guards, and her deptd of hole is 26 feet. Her tonnage, by carpenter's measurement, is 2,500 tuns. There are two engines, each of 328 horse-power, with cylinders of 70 inches in diameter, and 10 feet stroke of piston, to aid the canvas in propelling the ship. She was built in 1842, and has since been almost constantly active in the

The Mississippi, it is expected, will leave this port on or about the 20th instant for Annapolis, where she will remain until the Princeton, now fitting to accompany her on the Japan expedition, is ready. It is expected that they will sail for Japan soon after the first of November, if not delayed by any difficulties about Cuba. The officers that will go out in her will be Commodore Perry and staff, Commander Adams commander of the fleet, Lieut. Contre, flag Heutenant. Capt. McClaney is in command of the Mississippi, having been the successor of Capt. Long for nine months past, ever ince she was commissioned for the Japan expedition. The complement of officers and men on the Mississippi will be three hundred, of which thirty will be officers attached to the ship, fifty marines, and the remainder sailors, firemen and coal-heavers. This ship is 210 feet long, and is of 40 feet beam. Her tunnage is registered at 1.788 tuns, but by carpenter's measurement it exceeds 2,000 tuns. She has two engines, each of 480 horse power, the cylinders of which are 75 inches in diameter, and the stroke of piston 7 feet. The battery consists of ten Psixban guns. Two of the guns are 128 pounders, of ten inch bore; the remaining eight are 68 pounders, of eight inch bore. The capacities of the latter are for balls, which, solid, would weigh 68 th, but not a single solid shot is used on board-shells are substituted. One of the eight guns was used on the 24th and 25th of March, 1847, in the attack on Vern Cruz; and the fact is inscribed upon its metal, that it was fired one hundred and thirty-eight times during those two days. It was while at this gun that Midshipman Shubrick, son of Commodore Shubrick, was killed. A copper ball from from the Mexicans struck him in the throat. He held the American colors in his hand at the time.

The Mississippi takes out a variety of articles as presents to the Emperor of Japan-to conciliate him, aston-Died, at the Astor House, New-York ish the natives, and prepare the way for the desired ne-City, on Wednesday evening, the 13th inst., F. R. Gaty-gotiation. A locomotive and a quantity of railroad iron will also be taken, with which to demonstrate how the lightnings have been converted to the use of civilization. Two of the ship's engineers (Messrs, E. D. Robie and G. W. Alexander.) are learning the use of the apparatus in order to explain it to the Emperor. An apparatus for taking daguerreotypes will also be used and explained for the information of His Majesty, by Lieut, Build, A beautiful barge is on board to be presented to him. Also, boxes of domestic goods, comprising a great variety of manufactured articles, which are to give the Emperor an idea of the industrial pursuits of this country, and perhaps awaken a desire on his part for an exchange of commodities between Japan and the United States. The Mississippi will take ten boats for her use. There are four beautiful brass nine pounders, mounted on carriages, which are to be used, if necessary, by parties of Engineers engaged in surveying. They can be fitted in the bows of boats which may be employed in exploring the coast. Should this expedition succeed in its under taking, and establish commercial relations between the United States and that extensive and secluded nation, it will richly repay the risk and expenditure incurred.

> CHARGE OF MANSLAUGHTER.-The examination of Mesers. Woodbull and Rhodes, Assistant Engincers of the steamship Franklin, in relation to the death of John Fortune, a coal passer, already referred to, was continued. The only part which Mr. Woodhull was shown to have taken, was throwing a pall of water over deceased as he lay on the floor. (Mr. Rhodes also threw three or four on him, the witness suppo that they thought he had been drinking.) Mr. Woodhull was accordingly discharged, and the examination continued as to Mr. Rhodes. It was shown that de cessed did not get coal out on the plate, and Mr. R. came off the platform and told him to get coal; he went to the coal deposit and came out without any, and said he was not able to get it. Mr. R. struck him two or three times behind with the flat of the shovel, to make him He afterward wanted F. to go up to his bed, as already stated, but F. declined, and the testimony varied as to whether Mr. R. had hold of F. or not when trying to get him up the ladder, and kicked him in the neck

> The Chief Engineer and the Physician of the ship, testified to deceased not having any marks about him. The Engineer said that three-quarters of the men were drunk the day before, when they left the wharf at New-York. Saw deceased at 5 o'clock that afternoon, when he appeared to be the worse for fiquor. The testimony varied as to whether deceased appeared to have be drinking or not. It was shown that the temperature of the fire-rooms was 95 to 120 degrees. The physician considered from his own examination, and from information as to the case, that defendant died from heat and exhaustion, and thought so from his own examination, aside from what had been told him. The weather was excessively hot, and more men broke down that voyage than the physician had even known. Deceased had been five or six voyages in the ship, and his son (a lad) also belonged to her. To be continued.

> PRESENTERY OF NEW-YORK.-The Presbyery of New-York met at Jamaica, L. I., on Monday. The Moderator, Rev. J. E. Rockwell, preached the opening sermon from Isaiah 54, 2-3. " Enlarge the place thy tent, and let them stretch forth the curtain of thy habitation," &c. The theme of the speaker was Church Extension, in its relations to the growing destitutions of our larger towns and cities, and was an earnest appeal to parties and families to engage in the work, by a proper system of Church Colonization from large and well established congregations, including also the provision of means for Church erection. Rev. Charles K. Imbrie was then elected Moderator, and Rev. J. E. Rockwall and J. D. Wells, Clerks. The Committee appointed to

oreanize a German Presbyterian Church in Thalian Hall, reported progress, and gave an interesting acof their interview with that people worshipping there, and their prospective influence upon the German population of New-York. A letter from the Reformed Presbyterian Church of Williamsburgh was read, giving no tice of their intended transfer from the Northern Reformed Presbytery to this body. The Stated Clerk read a circular letter from the Presbytery of Baltimore respecting the erection of a new church in Washington, D. C. Mesers, Everett and Duryes, students of Princeton College, were, after examination, received under the care of the Presbytery, as candidates for the Gospel ministry. The appeal for aid in erecting a new church in Washington City, was commended to the favorable consideration of the churches. Mr. John M. Nulty was licensed to preach the Gospel. After the transaction of some other items of business, the Presbytery adjourned to meet during the session of the Synod at New-York.

Rev. Dr. Farley, of Brooklyn, was among the passengers per America, at Boston. We learn that he has returned with fully restore dhealth.

BOARD OF EDUCATION.-The President, E. C. Benedict, Esq. in the Chair.

The report of the Committee appointed to cunfer with
the Public School Society, in favor of a union with said Society, was taken up and adopted.

Reports.—In favor of appropriating \$1,500 to fit up and

ciety, was taken up and adopted.

Reports.—In favor of appropriating \$1,500 to fit up and furnish additional class rooms at Ward School No. 2, Sevententh Ward. Adopted.

In favor of appropriating \$310 to complete the repairs and niterations of Ward Schools Nos. 4 and 17, Fourteenth Ward. Laid on the table.

In favor of adopting the form of certificates as to qualification for Teachers. Laid on the table to be printed.

In favor of requesting the Chamberlain to deposit to credit of the Board \$83,600 17, amount of expenses, &c., to Nov. 1.

Adopted.

Adopted.

Application from Fifth Ward for appropriation of \$1,135 for extra works at School-House No. 22. Referred.

Resolution in favor of establishing a new Frimary School in the Eighteenth Ward, in the vicinity of Sixteenth, Seventeenth and Eighteenth-six, between First-av. and Avenue

BOARD OF ALDERMEN-Thursday.-Richard

BOARD OF ALDERMEN—Thursday.—Richard T. Compten, Esq., President, in the Chrir and a quorum present. The minutes of the previous meeting were read and approved.

Petitious Referred.—Of about 250 citizens of the Ninth Ward in favor of the Broadway Railroad project; of 450 occupants and owners of property on Grandest, Broadway and Catalest, remonstrating against the projected railroad through said streets; of 572 citizens owners and occupants of property on Broadway against the Broadway Railroad project; of about 160 citizens of the Tenth Ward in favor of the same; of 452 citizens of the First Ward for the same; of 452 citizens of the Eighth Ward against the same; of 453 citizens of the Eighth Ward against the same; of about 250 citizens of the Eighth Ward against the same; of Calvin, Cotton and others, remonstrating arainst giving extension; of time to the contractors for raising and regulating Greenwich and Washington-size of 352 citizens of the Fourth Ward against the Broadway Railroad; of 425 citizens against the same; of Myndert Van Schatch, John B. Dingledein, Horsen M. Dewy and Nicholas Goelz, for privilege to lay a double track railroad through Third-av, from Staty-first-st, to the Bowery, through Chatham, Pearlest and Franklin-square, and to Peck-slip if necessary; also, a branch track to the City Hall, and permission to go to Harlein when the avenue is graded.

Petition Granted.—Of P. Cooper, for privilege to extend the portice of a building for a machanial school, on Eighthat.

Reports. Modeled.—In favor of altering the grade on Forty-

Reporte Adopted.—In favor of altering the grade on Forty-third and Forty-fith-sts, between the Eleventh and Twelfth-avs. To erect a shed over the south-side of Clinton Market, and anbeitning a plank floor for the fish market. To change the grade of Fiftieth-st, between Seventh and Elgith-avs. To allow seven additional men to Hose Co. No. 2t. To regulate and grade Fifty-second-st, from Eleventh-av. to Hadsen River; In favor of allowing Hook and Ladder Companies forty men, and all Engine Companies having the seemd class Philadelphia engines in use, to increase to sixty men.

seend class Philadelphia engines in use, to increase to saxly men.

The Tenth Arenue Sewer Case.—The report of the Special Committee on the charges made by Mr. Cravin, against the Committee on Sewers was presented, laid on the table and ordered to be printed, together with the testimony. It justifies the action of the Sewer Committee.

Nomination.—Henry Arenarius Commissioner of Streets and Lampa, sent a communication nominating Senjamin D. Welsh, for Superintendent of Clocks instead of Jas. W. Fanikher, which was laid on the table. Addermat Startevalt inquired the reason for removing Mr. Fanikher, and said that he was told that Mr. F. was too pure for the officer. Resolutions Adopted.—Appropriating the additional sum of \$200 for a defliciency in the appropriations for the celebration of the Fonth of July, that the actual opening of One Himdred and Nineteenth-st., from Fourth to Eigenbays. As confirmed by the Supreme Court, take place forthwith.

The Board, on motion of Ald. Ward, adjourned to Monday. BOARD OF ASSISTANT ALDERMEN, Taursday.

-A quorum not being present, the Board stood adjourned to Friday afternoon, at 5 o'clock.

THE LATE EMBEZZLEMENT CASE-Investi-

gation.-The investigation into the late detalcation case, Brown Brothers & Co. against Mr. Bowen, their cashler, was continued yesterday, before Justice Osborn, and

was continued vesterday, before Justice Osporn, and
the following testimony was elicited:

Examination of Mr. Starrt Brown, continued—He testified as follows: On March the 22d the small discres, "195,
196,000; on 25th, 196; on 25th, 197, 198, 201, 176, and 3d,
196,000; on 25th, 196; on 25th, 197, 200, 17th, 197, 24h, 176,
30th, 196,000; 3lst, 176; on April 1, 176; 12, 176, and 3d,
5th and 6th, the same; on the 7th the futures are 181, and an
the 5th and 6th the same; on the 19th and 12th they are
176; on 15th 19th, 19t; on the 14th, 176, and on the 15th,
19th, 19th, 19th, 20th, 23th and 24th the same; on
the 3tth, 19th; on Lyth and 28th they are 185,000; on 28th,
19th, 19th; on Lyth and 28th they are 185,000; on 28th,

200 August 120

On the 5th of September the entry is (22) the same as the latter. Also on the 5th, 1th, 15th, 10th, 22d and 25th of September. On the 5th, in the right hant column, it is 25, 100. This is the last day that the figures appear in the book. This is the last day that the figures appear in the book. This is the last day that the figures appear in the color of the figures appear in the book. This is the last day that the figures appear in the American Bull your firm keep a book known as the Borrowed and Lent Book!

Assure. There was always such a book up to a certain time, and all previous cashers kept it; I find such book was kept up to the 21st July, 1851; since that time toste does not appear to have been such a book; "borrowed and lent" has been kept on sheets of power, and parely in the trial blotter before referred to, in which the small figures are entered; I find one such sheet, borrowed and lent account, from the time of the commencement of the books is mostly kept in them.

Have you found any borrowed and lent book since the f. I have found one; it was up to July, 1851, and none

since.
Q. Have you found any loose sheets wherein the account has been kept since July, 1851?
d. I only find one showing the account, July 7, 1852, which is now produced.
Q. Is there any account of money loaned to Mr. Comstock

On Is there any account of money loaned to Art Constock in this sheet?

A. No. The small figures '256' do not appear in this sheet; the aggregate of this account steads in the book under the 7th July, 1852, under the heading Smaltney; this sheet is in Mr. Bowen's handwriting; the first entry is September the 26th, 1851; the sheet represents all the outstanding leaus of the house from that time down to 7th July, 1852, except one entered maker borrowed and lent of \$48, 759 91; the small figures 28 do not in any way enter into No.2, except one entered many expensions and the second and the two sums; had there been any regular lean of \$2.6,0.0 in would have appeared in this sheet; that sheet is made out to show the leans of the house; it is put there to save trouble; it is a list of the loans to show the mouves loaned for the time being; subsequent to the 7th July, 1852. Mr. Bowen has help borrowed and lent account in the trail book No. 2; this appears on the left-hand side of each day's entry; had there been any regular loans they would appear on the left hand side; it is not a proper place to put the borrowed and lent where these figures, before referred to, are found. Mr. Bowen has not shown evidence of loans to Mr. Constock of any money; we find no such check or note; where loans are made we notally take a memorandum to note; there is no note of Mr. Comstock nor has any been produced by Mr. Bowen; since the transaction in July, 1851, I do not recollect to have seen Mr. Comstock but once the came in and was in the forward part of the office speaking with Mr. Bowen; I immediately, when he went out, saked Bowen was line wanted; Bowen said he merely asked the standing of a charter of the standing of a charter

forward part of the office speaking with Mr. Bowen; I immediately, when he went out, asked Bowen what his wanted; Bowen said he merely asked the standing of a house; I do not recollect the time; this was the only time that I recollect; this discovery of Mr. Bowen's conduct was made before I came home; I arrived here the 2d of October; I understood it was made the 5th of September.

[The witness here corrected a statement made on his last examination. He said: "In regard to the 15an made to Comstock, I loaned Mr. Comstock \$5,000, and his friend \$20,000. This was on the 4th of August instead of July, as he fore stated."]

fore stated."]

Q.—Do the small figures before spoken of, in any manner
opear on the rash book! Objected to, because the books
ould show it themselves.

The cross-examination of the witness was here post-

poned until the Court could examine another witness for the prosecution, at the request of Mr. Fullerton.

for the prosecution, at the request of Mr. Fullerton.

James Brown, being called and sworn, testified as follows—
I am a member of the firm of Brown. Bros. & Co., and I know Mr. A. G. M. Bowen; he was employed in our firm since 10 or 12 years, here and in Philadelpina; he was employed here as cashier; his daty was to keep the cash account; he also kept the borrowed and lent account; he had a power of attorney to draw checks; he had no authority from me to make loons except when specially directed; Mr. Stant Brown intends to this part of the business, and Mr. James M. Brown more particularly; since the last of July, 1851, our house has not lent to my knowledge, any money to Mr. Comstock; I may have seen Mr. Comstock at our premises, but not more than two or three times; at these times I do not know what his business was; I have seen these two books produced; they are called cash trial books, in which Bowen balanced his cash account; I have observed the small figures before spoken of, but only since this development, and do not know what they represent, placed where they are; these figures do not occupy the proper place for loans in this account; money loaned in these books should appear on the left hand column; the first

discovery was made. I understand, on Thursday; I was from home at the time, and returned home the Saturday following: Thursday, the 28th of September, I mean; Mr. Bow in he sate produced to me any note or other memorandum of mency lent to Mr. Comstock; the accused was to receive security for such lean, sud then it would be entered and appear out he left hand column; I do not know that any loans had been thate by our house to Mr. Countock; I never authorized Mr. Bowen to make any to him; in drawing checks it is usual to enter the name on the margin of the check book and ministand not to do so; we never have occasion to draw so large a sum as \$100,000 for change; these marked Ex. 3 produced; this is in the handwriting of Mr. Bowen; it is a list of loans made from September, 1831, to July, 1832. I find this aggreg to entered in the trial book as sundires; on the 7th July, 1832, the outstanding loans appear to be I not this aggregite wherein the train book as appear to be \$441.244 90 and \$38.759 91; the small figures on that day are "28" of the place representing \$205,000; these figures do not enter into the \$441,324 90, which appears to be that day's work; this fiere does not embrace all the loans made during that time, but those that were outstanding at that

The case was here adjourned to Saturday morning at 11 o'cleck. In the absence of Mr. Johnson Police Clerk, Mr. F. A. Lane acted in that capacity during the

Fire.—About 54 o'clock, on Thursday morning, a fire broke out in a wooden building, occupied as a stable, in the rear of No. 157 Twenty-minth-st., occasioned by a lamp, which had been carelessly left burning near a quantity of bay. The firement were early on the ground but despite their efforts, the building with its contents was entirely destroyed. An adjoining building, occupied by Francis Michael, was partially destroyed. Damage to stable, about \$4.0°; and to adjoining building, \$200—insured for \$17.5 Thanes communicated to the following buildings in front, the roofs of which were destroyed and the property of the occupants greatly damaged by water. No. 155, occupied by Nicholas Harris, damage, \$500; No. 157, occupied by Philip Faulkner, damage, \$500; No. 157, occupied by Philip Faulkner, damage, \$500; No. 156, occupied by Philip Faulkner, damage, \$500; No. 150, occupied by Philip Faulkner, damage, \$500; No. 157, occupied by Philip Faulkner, damage, \$500; No. 157, occupied by Philip Faulkner, damage in the Chizene Insurance Company. The Police of the Twentieth and Sixteenth Wards were early on the round, and rendered material add to the firemen. ACCIDENTS .- James Bracken, of No. 169 Mul-

ACCIDENTS.

ACCIDE DEATH BY DISEASE OF THE HEART .- Jona-

than Full, a laborer in the iron foundry of Worrall & Co., in Duncest, while string in a chair reading a newspaper at about 7 o'clock yesterday, feil suddenly from his seat and immediately expired. Coroner Iros held an impuest upon his body, and a verified of death by disease of the heart was rendered. The deceased was a native of Pennsylvania, 45 years of age, and has left r wife and two children, who reside in Philadelphia. PREMEDITATED ESCAPE FROM THE TOMBS

PREVENTED.—Yesterday morning, among the various per-sons who presented themselves for admission to the prison, was a woman who asked for a ticket to go in and see Martin wis a winion who asked for a ticket to go in and see Martin Webber, a desperate character, confined on a charge of hurdary. Mr. Edimonds was at the desk, and, observing she and quite a large basket with her, stepped round to examine it, when, after turning over a load of head, some apples, &c., he found a bedcord and a large hammer, which was new, and appeared to have been just purchased for the purpose. The woman was detained, and, on searching the cell of Webber, a cold-chiest was found, and other preparations were undefor the commencement of the work to facilitate his escape. Webber is a lard case, and has already made one escape from the cells at the Jedferson Market Prison. He was kept in irons some days after he was retaken, and brought to the Tombs. After the above discovery he was removed to one of the ground-floor cells, where he will have little clance of the ground-floor cells, where he will have little chance to renew his operations. The woman, who was his sister, was let off, but warned to not make her appearance in that

AFFRAY IN HOWARD-STREET .--- About 11 AFFRAY IN HOWARD-STREET.—About II o'clock yesterday merming an organ-grinder, winde fascinating the occupants of house No. 2I Howard-st. by discoursing to them music from his instrument, was surrounded by a party of tide boys who commenced abosing him and making a disturbance. A teacher of dancing, named Allivan Henrico, residing at the above-named house, mingled with the crowd and soon became involved in the disturbance. He had in his hand at the time a ratio case, the end of which, by some means, got thrust into the eye of Michael Anderson, a lad ly years of are, residing at No. 102 Bayard-to the New-York Hospital and Henrico was arrested by Officer O'Brien of the Fourteenth Ward and taken before Justice Wood, it being supposed that he had indicted the injury intentionally, but no evidence showing that to have been the case was adduced, as the boy was too severely injured to allow of his appearing at the Court, and he was discharged. Another witness who is said to have seen the occurrence, was also not in Court, but will be found to-day, when further proceedings may be taken in the matter.

[Advertisement.]
The public mind should at once be settled, through the medium of the press, or otherwise, in regard to the claims of the Hydrostat, for preventing Steam Boiler Explosions. It may be seen at the Fair, on the boiler, acting constantly in the double capacity of Water-Gange and Supply.

A term of this Court, (for consultation,) appointed to the held at the Capital in the City of Albury, or the 28th of December sett.

The reargument in No. 2 continued until 2 P. M. and concluded.

SUPREDIOR COURT-Refore Judge Oamer. To recover damages for injury to the plaintiff

by defendant, in June, 1860, causing an advertisement to be inserted in The Sun, alleged as \$15,000 \text{.} "One Cent Reward—Walked away. Nathan McAloes, an appearatice to me as a stonecutier. I. therefore, estable the public not to employ and appearatice. June 12, 1860, Jersey City. Alex. Wilson. In consequence of this, the plaintiff says, he was destructed from the service of Jeremin Loonsy, in whose employatest, as somecrame, he was, and was for a long important of employment. In defense it is said that plaintiff had been placed, by verticil agreement, with defendant, (who as a stonecutier, at Jersey City) by plaintiff an there is said that plaintiff had been placed, by verticil agreement, with defendant, (who as a stonecutier, at Jersey City) by plaintiff at there, is locally the plaintiff of the properties and that the side becoming useful, at the end of flour rears, he left. In reply to this, (and he, mother an testified the agreement was far four years, plaintiff at the time being 19 years of age, and 23 years of age at the time he for defendant. Verified for plaintiff, at J. 20.

Thermax Souries and Catherine D, his web, against John Wheedon and Mary Ann, his wife.

To recover damages for "bander, in Mrs. W. charging Mrs. S. with microscution and making a disturbance, and crassing her, on a charge of the kind, to be arrested. There being an informatity in the pleadars, the case was withdrawn.

COURT OF COMMON PLEAS - Before Judge Issuanas. The plaintiff is a brick carman, the defendand a grower. The action is for stander, in defined and which to plaintiff he was a their and made his laving hy stealing bricks, and solling them. On the other hand it was altered that plaintiff used some providing incomings, Verdict for plaintiff, \$25, which carries a like amount of costs.

C. S. COMMISSIONER'S OFFICE. Refere Commissioner Marras.

Francis Condon, arrested and gave ball a few days view, on a charge of opening a letter directed to his nephero, william Condon, was examined. Testimony was taken. It was each that defendant had authority to open letters, and the Commissioner considering it was not done, in this case, with improper motives, the complaint was dismissed.

U. S. MARSHAL'S OFFICE

A German was brought up from one of the Police Stations, charged with passing a counterfeit counterfeit quarter dollar. Held for examination

COURT OF GENERAL SESSIONS-Before the Recorder and The case of M. M. Gross, editor of the The case of M. M. Gross, editor of the Aberd Zeiture, a German paper, pulsished in this city, was called up for trial. The defendant is charged with publishing a libel upon the character of Mr. Joachumson, who noted as counsel for Otto Grunnig, who was recently denou months since. Henry L. Chuton and G. W. Higgins, Euge, appeared for the defendant, and moved for a postponement of the trial, on the ground of the absence of serveral important witrasses. Mr. Clinton stated to the Court that the Governor and Attenney General of the State bave been suphemed as witnesses, but that the Governor and attended to the Court that the Governor and the toward of the State bave been suphemed as witnesses, but that the Governor would not be able to attend during the present term of the Court. The motion was granted, and the case was put off till the irt Mondar's of November neat.

It is expected that some curious revelutions, showing the operations of certain porties who fayured in the case of the undiritinate Grunnig, will be made during the course of this trial.

Patrick Campbell was tried and convarted of hexing on the 21st Sept. last stollen about \$200 and a gold watch, the property of William Knickerbecker, master of the canal docat J. Willard, then lying near the Batteey. The prisoner was remanded for sentence.

THURSDAY, Oct. 14-P.M. The Stock market this morning was heavy,

with a moderate demand for the fancies. Eric fell off to 841, but recovered firmness at the Second Board, and closed at 814. The increased stock within the year is, we understand, about a million and a half of dolla receipts of October thus far are very large, and indicate a possible increase on September. Harlem, Stonington, Norwich, Long Island, &c. are without important change, but heavy. Cumberland was heavy, and fell off to 64. At the Second Board, however, there was more buoyancy, and it improved to 644. The Stocks generally were firm. New Jersey Zine is well
